Education

Columbiana High School (2019-2022)

GPA 3.91 | Graduating Summa Cum Laude and with Honors

Participated in Robotics (Notebook Manager, Media Manager, Programmer, Research and Development), Destination Imagination (2019 & 2020 global finalists), Interact (Freshman Vice President), Prom Committee, Pep Club, French Club, National Honor Society, Me to We, Girl Scouts, 4-H, Girl Up, YSU 3D Printing, YSU English Festival, Office Aid, Teacher Aid, Marching Band, & Concert Band.

Notable Classes : AP Government & Politics, AP Language & Composition

Girls Who Code (2021-2022)

Accepted into and graduated from Girls Who Code's Summer Immersion Program with Synchrony Financial in 2021. Learned HTML, CSS, and JavaScript through the creation of a portfolio page, a JavaScript quiz, and an activism project: Sustain.Able.

Youngstown State University (2022)

Master 3D Printer Operator

Selected to be one out of the 17 students selected from multiple schools (1000+ others) to participate in this program. Given a free 3D printer from the university and completed the course successfully.

Harvard University (2022)

CS50 | Edx & Harvardx

Successfully completed Harvard's introduction course into Computer Science CS50.

Experience

We Can STEAM (2020-Present)

Founder, Executive Director, Web Developer, Social Media Manager, Graphic Designer, Writer

- Managed a team of 15+ students during my time
- Grew orgs social media to over 4,200+ followers across all social sites
- Worked as the Web Developer : created, updated & maintained website
- Led the team to the creation of our first online magazine
- Created and grew our community and homework help slack to 410+ members

Inspire All Girls (2021-Present)

UI/UX Web Developer

- Built a site for a non-profit organization dedicated to empowering young women and girls to lead, inspire, and learn that reaches 300+ people

Recreate Media Company (2022-Present)

Executive Director, Writer, Web Developer

- Founded a media company producing free online magazines regarding topics on self help, identity, self expression, and mental health.

Awards

OH-16 Congressional App Challenge Winner (2021)

Designed and coded Sustain.Able, a website that encourages sustainable living for the everyday person. Was given the opportunity to present to members of congress and sponsors such as Apple, Amazon, and Facebook.

Credentials

United Nations Girl Up Leadership Course & Seminar (2022)

Learned how to be a leader in all aspects of life through a self-paced course and took part in the 2022 leadership conference to further my education.

Volunteer Work

Columbiana Public Library Summer Program (2017-2020)

- During the eight weeks I volunteered at the Summer Reading Program I would help with the guessing game: helping kids read and answer the question while also interacting with them to help make the program a safe space. I also sat with the kids through the program, helping set up activities and games for them.

Crown Theaters Special Needs Productions (2018-2020)

- At Crown Theater I volunteered as an attendant for the special needs shows Peter Pan, Annie, and Once on this Island. As an attendant I would help actors learn their lines and feed them their lines, if needed, while on stage. I helped actors learn choreography and helped them learn their spots on stage.

Girl Scouts STEM Camp

- At the Girl Scout STEM Camp I assisted two of the girl scouts who have special needs in the various STEM activities we completed. Together we made series circuits, learned about acids and bases, and learned about HAM radio.

Joy of Christmas Light Show (2019-2023)

- At the Joy of Christmas light show I've volunteered at all three spots. At the ticket booth I kept track of the amount of cars that came in, gave people directions, answered questions, made change, and kept track of the money. At the Ice Castle I directed

families, answered questions, and wiped down touched surfaces. At the Gingerbread House I kept the fire going, watched over the gingerbread houses, and cleaned off touched surfaces.
